New Year's Resolution: Get Involved in EWTG in 2024

At the start of the new year, we find ourselves questioning what we will do to make this year different. We often make resolutions and set intentions to do things such as losing weight or making self-care a priority or drinking more water.

If you have plans to make some changes in the new year, may I recommend that whether you set an intention or focus on a word or phrase you should include EWTG in your plans for change.

Your membership works best when you work with the membership. EWTG offers an incredible group of women who are on your same journey or have completed the tasks already. You may even be the inspiration to another woman who hasn't decided where to start.

I invite you to join a committee and/or an executive success team (EST). Find an area that helps you focus on the journey you want to take this year. If you don't see a group that fits your 2024 goals and dreams perhaps, we can help you start an EST to find the leader in you and continue to grow the leader in you.

Send an email to the committee chair if you want to join any of the following committees:

- 1 **Affiliates Committee:** affiliates@ewtg.org - Works with the member groups from around the state.
- 2 **Communications Committee:** communications@ewtg.org - Produces the newsletter and social media posts to promote the organization.
- 3 **Conference Committees:** conference@ewtg.org - Assists in planning the annual conference and all aspects of the conference.
